atelier

Atelier è configurabile utilizzando moduli in acciaio con sezione minima di 10x10mm e contenitori in legno con diverse tipologie di aperture. Telai e contenitori possono essere sovrapposti e affiancati a piacimento, posizionati su basi o sospesi a parete. Sono disponibili accessori da inserire all'interno dei telai e top in HPL o marmo.

Atelier can be configured using modular elements in steel with a minimum 10x10mm cross-section as well as wooden containers with several different types of openings. Both frames and containers can be stacked and placed side by side as desired, either installed onto support bases or wall-mounted. Accessories to be integrated into the HPL or marble frames and tops.

Atelier peut être configuré en utilisant des modules en acier avec une section minimum de 10x10 mm et des bacs en bois avec plusieurs typologies d'ouvertures. Châssis et bacs peuvent être superposés et associés à loisir, positionnés sur des bases ou suspendus au mur. Des accessoires sont disponibles pour l'insertion à l'intérieur des châssis et plateau en HPL ou marbre.

Bei der modularen Serie Atelier lassen sich Stahlmodule mit einer Mindeststärke von 10x10 mm mit Holzbehältern verschiedener Arten und Öffnungen kombinieren. Gestelle und Behälter können übereinander oder nebeneinander angeordnet, auf einen Unterbau gestellt oder an der Wand aufgehängt werden. Verschiedene Einsätze für die Gestelle sowie Abschlussplatten aus HPL oder Marmor als Zubehör erhältlich.

Atelier se puede configurar utilizando módulos de acero con sección mínima de 10x10mm, así como contenedores de madera con distintos tipos de aperturas. Bastidores y contenedores, pueden colocarse uno encima del otro o uno al lado del otro, según se prefiera, posicionados sobre bases o colgados en la pared. Están disponibles accesorios que se pueden introducir en el interior de los bastidores y encimeras de laminado de alta presión (HPL) o mármol.

monolith

La scocca in alluminio estruso che costituisce l’ossatura portante di monolith, consente grande rigidità strutturale e una libera configurazione delle partizioni interne. Tale sistema costruttivo forma un insieme molto semplice da assemblare e riconfigurare, evitando di raddoppiare gli spessori dei fianchi al suo interno.

The frame in extruded aluminium forming the support structure of Monolith gives an extremely firm structure with free configuration of the inner partitions. This composition system forms a very simple set to assemble and re-configure, without doubling the thicknesses of its inner sides.

Le châssis en aluminium extrudé qui constitue l’ossature portante de monolith, permet une grande rigidité structurelle et une libre configuration des divisions internes. Ce système de construction forme un ensemble très simple à assembler et reconfigurer, en évitant de doubler les épaisseurs des côtés à l’intérieur.

Der Aufbau aus extrudiertem Aluminium, der das tragenden Gerüst des monolith darstellt, bietet eine bedeutende, strukturelle Steifheit und eine freie Konfigurierung der Innenaufteilung. Dieses Konstruktionssystem bildet eine Einheit, die einfach zusammenzubauen und neu zu gestalten ist, wobei die Verdoppelung der Stärke der Seiten im Innenbereich vermieden wird.

El bastidor de aluminio extruido que constituye el armazón de soporte de Monolith permite una gran resistencia estructural y una libre configuración de las particiones interiores. Este sistema de construcción forma un conjunto muy fácil de montar y reconfigurar, evitando duplicar el espesor de los laterales en su interior.

XY

Il brevetto XY consente di posizionare i ripiani lungo l’asse verticale Y e le coppie di profili portanti lungo l’asse orizzontale X. Il posizionamento in X ed Y avviene in continuo, senza posizioni predefinite. Ciò costituisce un’ossatura portante in grado di essere allestita con schiene, fianchi, ante a ribalta, ante a battente, cassettiere.

The patented XY system enables you to position the shelves along vertical Y-axis and the pairs of load-bearing profiles along horizontal X-axis. Positioning along X and Y is completely free, without any preset positions. This creates a load-bearing framework that can be completed with backs, sides, tilting or leaf doors, drawer units.

Le brevet XY permet de positionner les étagères le long de l’axe vertical Y et les paires de profilés portants le long de l’axe horizontal X. Le positionnement suivant X et Y s’effectue en continu, sans positions prédéfinies. Ceci réalise une structure portante susceptible d’être équipée de fonds, côtés, portes à rabattant, portes à battant, kits de tiroirs.

Das Patent XY ermöglicht es, die Böden längs der vertikalen Y-Achse und die tragenden Profilpaare längs der horizontalen X-Achse zu positionieren. Dabei kann die Positionierung auf X und Y an jeder Stelle ohne voreingestellte Positionen erfolgen. Auf diese Weise wird eine tragende Struktur gebildet, die mit Rück- und Seitenwänden, Klapp- und Flügeltüren, Schubladenelementen.

La patente XY permite colocar los estantes a lo largo del eje vertical Y y las parejas de perfiles portantes a lo largo del eje horizontal X. La colocación en X e Y se produce en continuo, sin posiciones previamente definidas. Esto forma un armazón portante capaz de albergar dorso, laterales, puertas abatibles, puertas de batiente, cajoneras.

I ripiani e le coppie di profili verticali sono ordinabili al cm. I due elementi sono completi di tappi terminali, piedini regolabili e fissaggi a parete.

The shelves and the pairs of upright profiles can be ordered in any length, in cm. The two elements are supplied complete with end plugs, adjustable feet and wall attachments.

Les étagères et les paires de profilés verticaux sont réalisables sur mesure au cm. Les deux éléments sont équipés d’obturateurs d’extrémité, de pieds réglables et de fixations murales.

Die Böden und die vertikalen Profilpaare können zentimetergenau am laufenden Meter bestellt werden. Die beiden Elemente werden komplett mit Kappen für die Enden, verstellbaren Füßena und Wandbefestigungselementen geliefert.

Los estantes y las parejas de perfiles verticales pueden pedirse al centímetro. Los dos elementos están dotados de tapones terminales, pies regulables y sujeciones para su fijación a la pared.

from>to

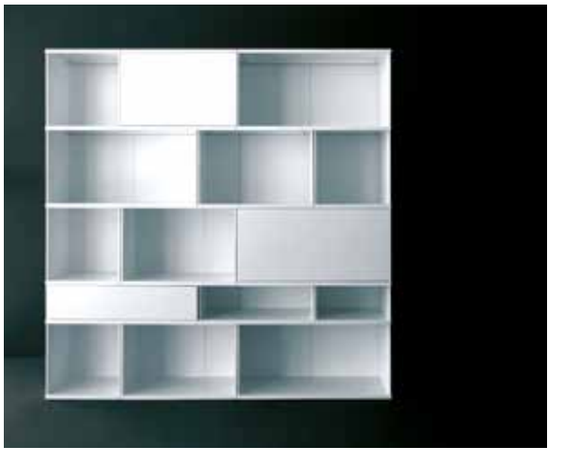

Ogni composizione di from>to è configurabile utilizzando 6 moduli base, determinati da tre variabili in larghezza (40-60-80 cm) e due in altezza (40-20 cm). Scegliendo un numero di moduli a piacere, essi possono essere affiancati ad intervallo variabile al millimetro e sovrapposti secondo semplici regole compositive.

Each composition of from>to is configured using 6 basic modules, determined by three width variables (40-60-80 cm) and two height variables (40-20 cm).The number of modules can be freely chosen, and they can then be assembled horizontally at variable intervals to the millimetre and vertically following simple rules.

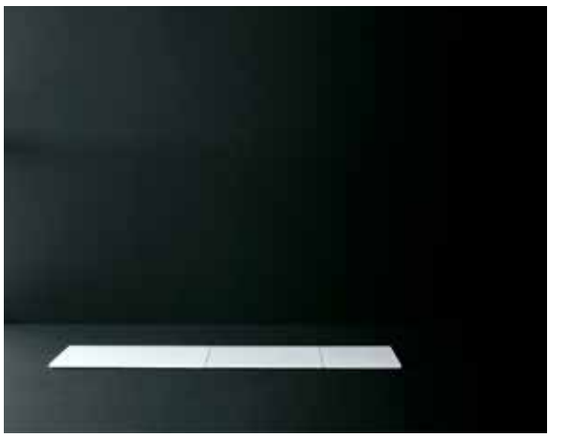

Chaque composition de from>to est configurable en utilisant 6 modules de base, déterminés par trois variables en largeur (40-60-80 cm) et deux en hauteur (40-20 cm). En sélectionnant un nombre de modules au choix, ceux-ci peuvent être placés côte à côte à intervalle variable au millimètre et superposés suivant de simples règles de composition.

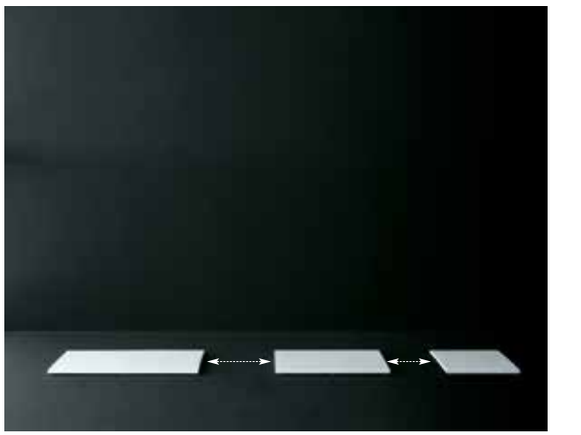

Jede Komposition von from>to kann mit 6 Basismodulen konfiguriert werden, die in drei Breiten (40-60-80 cm) und zwei Höhen (40-20 cm) angeboten werden. Nachdem ganz nach Belieben eine Anzahl von Modulen gewählt wurde, können diese mit millimetergenauem Abstand nebeneinander und nach einfachen Regeln übereinander gesetzt werden.

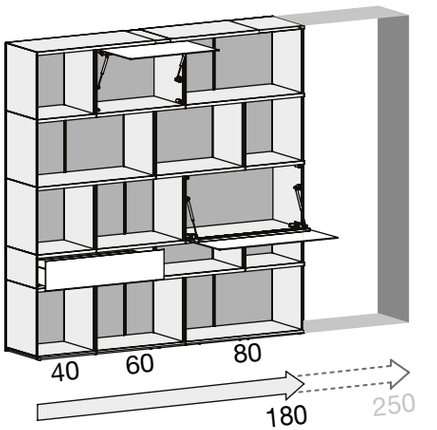

Cada composición de from>to se puede configurar utilizando 6 módulos base, con tres variables de anchura (40-60-80 cm) y dos de altura (40-20 cm). Se puede elegir el número de módulos que se desee, pudiéndose colocar uno al lado de otro según un intervalo de milímetros variable y superponerse según unas reglas simples de composición.

extendo
patented
product

system

Il sistema brevettato extendo è formato da due profili in alluminio estensibili, adattabili alle diverse altezze degli ambienti. Agendo sulla leva a scomparsa, i profili si bloccano all'altezza desiderata e si comprimono tra pavimento e soffitto, senza l'utilizzo di alcun utensile o pre-fissaggio.

The patented extendo system consists of two extendable aluminium profiles that can be adapted to environments of various heights. Using the foldaway lever, the profiles can be blocked at the desired height and compressed between floor and ceiling, without having to use any kind of pre-fixing tool.

Le système breveté extendo est constitué de deux profilés extensibles en aluminium pouvant être adaptés aux différentes hauteurs des milieux. En agissant sur le levier escamotable, les profilés se verrouillent à la hauteur souhaitée et se compriment entre plancher et plafond, sans utiliser aucun outil ou préfixation.

El sistema patentado extendo está formado por dos perfiles de aluminio extensibles, adaptables a las distintas alturas de los ambientes. Actuando sobre la palanca escondida, los perfiles se bloquean a la altura deseada y se comprimen entre el suelo y el techo, sin que sea necesario utilizar ninguna herramienta o fijación previa.

Das patentierte System extendo besteht aus zwei ausziehbaren Aluminium-Profilen, die an unterschiedliche Raumhöhen angepasst werden können. Durch einen versenkbaren Hebel werden die Profile auf der gewünschten Höhe blockiert und zwischen Fußboden und Zimmerdecke ohne Werkzeug oder Vor-Befestigung komprimiert eingesetzt.

L'asta telescopica extendo esercita una spinta dinamica verso l'alto che consente di assorbire eventuali variazioni d'altezza tra pavimento e soffitto che possono avvenire nel corso del tempo. Per progettare senza vincoli ogni spazio, sono disponibili adattatori soffitto cartongesso, soffitto inclinato e a parete.

The extendo telescopic rod exerts dynamic upward pressure, so that it can absorb any height variations between the floor and ceiling that may occur over time.In order to design any space without limitations, adaptors are available for plasterboard ceilings, sloped ceilings and walls.

La tige télescopique extendo exerce une poussée dynamique vers le haut qui permet d'absorber les éventuelles variations de hauteur entre le plancher et le plafond susceptibles de se présenter au fil du temps. Pour concevoir tout espace sans contraintes, des adaptateurs pour plafond en placoplâtre, plafond incliné et pour application murale sont disponibles.

system materials

alluminio
aluminium
Aluminium

Le materie prime che costituiscono il sistema system derivano da un processo di riutilizzo e sono a loro volta riciclabili.

The primary materials used in the system “system” are sourced from a reuse process, and are in turn recyclable.

Les matières premières qui composent le système system dérivent d’un processus de réutilisation et sont à leur tour recyclables.

Die Rohstoffe für das System “system” entstammen einem Wiederverwertungsprozess und sind Ihrerseits wiederum recyclebar.

Las materias primas que constituyen el sistema system proceden de un proceso de reutilización y son, a su vez, reciclables.

Die Teleskopstange extendo übt einen dynamischen Druck nach oben aus, wodurch mögliche Änderungen des Abstands zwischen Boden und Decke, wie sie im Lauf der Zeit auftreten können, aufgefangen werden. Um jeden Raum ohne Einschränkungen planen zu können, sind Adapter zur Befestigung an Decken aus Gipskarton, Dachschrägen und an Wänden erhältlich.

La barra telescópica extendo ejerce un empuje dinámico hacia arriba que permite absorber las variaciones de altura entre el suelo y el techo que se pueden dar con el tiempo. Para diseñar sin limitaciones cualquier espacio, existen adaptadores de cartón-yeso para techo, techo inclinado y pared.

Profilo extendo con attacco a parete disponibile in tre altezze o con supporto a pavimento autoportante.

Extendo profile with wall coupling available in three heights or with freestanding floor support.

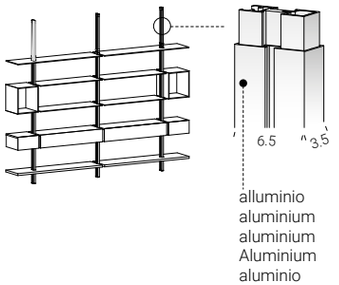

Profilé extendo avec fixation murale disponible en trois hauteurs ou avec support au sol autoportant.

Das extendo Profil mit Wandbefestigung steht in drei verschiedenen Höhen oder mit selbsttragender Bodenhalterung zur Verfügung.

Perfil extendo con sujeción a pared disponible en tres alturas y con soporte autónomo al suelo.

balance

Il supporto in acciaio dei tavoli balance costituisce la base di un sistema di telai in grado di adattarsi in modo armonico e proporzionato a tutte le geometrie dei top disponibili. La sezione triangolare deriva dalla compressione di tubi a sezione circolare in acciaio, tale compressione aumenta la resistenza del supporto, conferendogli una silhouette elegante e leggera.

The steel support of the Balance tables forms the base of a frame system capable of easily adapting to all the geometries of the tops available. The triangular section comes from compressing circular steel tubes. Such compression increases the strength of the support, giving it an elegant and light silhouette.

Le support en acier des tables balance constitue la base d'un système de structures en mesure de s'adapter de manière harmonieuse et proportionnée à toutes les géométries des plateaux disponibles. La section triangulaire dérive de la compression de tubes à section circulaire en acier, cette compression augmente la résistance du support en lui conférant une silhouette élégante et légère.

Die Stahlbeine der Tische balance bilden die Basis eines Rahmensystems, das sich allen Formen der angebotenen Abschlussborde harmonisch und proportioniert anpasst. Der dreieckige Querschnitt entsteht aus dem Druck der Stahlrohre mit rundem Querschnitt. Dieser Druck erhöht die Festigkeit des Halters und verleiht ihm eine elegante und leichte Silhouette.

El soporte de acero de las mesas Balance constituye la base de un sistema de bastidores que puede adaptarse armoniosamente proporcionado sobres disponibles para todo tipo de geometría. La sección triangular deriva de la compresión de tubos de acero de sección circular. Dicha compresión aumenta la resistencia del soporte, confiriéndole una silueta elegante y ligera.

spillo

Spillo è un tavolo dai minimi ingombri volumetrici, il top in HPL ha un bordo perimetrale visibile di soli 3mm. Il telaio in acciaio sottostante ha geometrie che massimizzano la resistenza e la rigidità del top, consentendo lunghezze sino a 300 cm. Il telaio ed i supporti a forma conica in acciaio costituiscono un insieme della massima leggerezza volumetrica.

The Spillo table offers minimum volume. The HPL top has a visible perimeter edge of just 3 mm. The underneath steel frame has geometries to maximise the strength and sturdiness of the top, allowing lengths up to 300 cm. The frame and the supports, which are made of steel and conical in shape, give an overall maximum volumetric lightness.

Spillo est une table présentant un encombrement volumétrique minimum, le plateau en HPL a un bord périphérique visible de 3mm seulement. La structure inférieure en acier présente des géométries qui augmentent au maximum la résistance et la rigidité du plateau, permettant des longueurs allant jusqu'à 300 cm. La structure et les supports de forme conique en acier constituent un ensemble de la plus grande légèreté volumétrique.

Spillo ist ein Tisch mit einem minimalem Platzbedarf, das Abschlussbord aus HPL hat eine sichtbare Kontourführung von nur 3 mm. Die Geometrien des darunter liegenden Rahmens aus Stahl maximieren die Widerstandsfähigkeit und Steifheit des Abschlussbords und ermöglichen somit Längen von bis zu 300 cm. Die Rahmen und konischen Stützen aus Stahl bilden eine Einheit mit maximaler, volumetrischer Leichtigkeit.

Spillo es una mesa de dimensiones volumétricas mínimas. El sobre de HPL tiene un borde perimetral visible de solo 3 mm. El bastidor inferior de acero posee unas geometrías que maximizan la resistencia y la rigidez del sobre, permitiendo longitudes de hasta 300 cm. El bastidor y los soportes cónicos de acero componen un conjunto de máxima ligereza
volumétrica.

sintesi

Semplicità costruttiva ed essenza dei materiali danno vita al tavolo allungabile “sintesi”. Il telaio è in acciaio per consentire sezioni ribassate e mantenere performance di allungo sino a 300 cm. Il top è in HPL e i componenti interni sono in alluminio, ottone e acciaio inox, ciò rende compatibile il tavolo anche in outdoor.

Simple construction and the essence of materials bringing a “Sintesi” extendable table to life. The steel frame allows for lowered sections and maintains performance up to a length of 300 cm. The top is in HPL and the inner parts are in aluminium, brass and stainless steel, making the table compact for outdoor use.

La simplicité de construction et l’essence des matériaux donnent le jour à la table à rallonges “sintesi”. La structure est en acier pour permettre des sections surbaissées et maintenir une performance d’allongement jusqu’à 300 cm. Le plateau est en HPL et les composants internes sont en aluminium, laiton et acier inox, ce qui rend la table compatible pour utilisation également en extérieur..

Die einfache Konstruktion und das Wesentliche der Materialien sind kennzeichnend für den ausziehbaren Tisch „sintesi“. Der Rahmen ist aus Stahl, um abgeflachte Querschnitte und Längen von max. 300 cm zu ermöglichen. Das Abschlussbord ist aus HPL und die Innenteile sind aus Aluminium, Messing und Edelstahl, dadurch ist der Tisch auch für Outdoor geeignet.

Su construcción sencilla y la esencia de sus materiales dan vida a la mesa extensible “Sintesi”. El bastidor es de acero para permitir secciones rebajadas y mantener su capacidad de extensión hasta 300 cm. El sobre es de HPL y los componentes interiores son de aluminio, latón y acero inoxidable, lo que hace que la mesa también se pueda usar en el exterior.

T7

Grazie alla tecnologia di piegatura tridimensionale dei profili è stato possibile realizzare un sistema tavoli che offre molteplici gradi di libertà. Il telaio leggero ma resistente supporta tavoli da 160 a 300cm di lunghezza, inoltre accoglie 5 tipologie di geometrie top e rende possibile anche la riduzione a misura.

Thanks to the 3D profile bending technology, it has been possible to create a table system that provides multiple degrees of freedom. The light yet resistant frame supports tables between 160 and 300cm long; moreover, it can accommodate 5 types table top profiles and makes custom reduction possible.

Grâce à la technologie de pliage tridimensionnel des profils, il a été possible de réaliser un système de tables qui offre de nombreux niveaux de liberté. Le châssis léger, mais résistant, supporte des tables de 160 à 300 cm de longueur, en outre il accueille 5 typologies de géométries de plateaux et permet aussi la réduction sur mesure.

Dank eines technologisch ausgefeilten, dreidimensionalen Biegeverfahrens erhält man Profile für ein Tischsystem mit einem breiten Spektrum an freien Gestaltungsmöglichkeiten. Leichte, formstabile Gestelle tragen Tischplatten von 160 bis 300 cm Länge, in fünf verschiedenen Ausformungen und Größen, wobei auch die Verkürzung nach Maß vorgesehen ist.

Gracias a la tecnología de doblado tridimensional de los perfiles, se ha podido realizar un sistema de mesas que ofrece múltiples niveles de libertad. El bastidor ligero pero resistente, soporta mesas de 160 a 300cm de largo: además, cuenta con 5 tipos de geometrías para la encimera y también permite la reducción a medida.

Un progetto di Le Corbusier del 1928 ha ispirato il design di questo sistema tavoli. I nuovi materiali hanno consentito un ridisegno all'insegna della leggerezza e di una grande libertà di configurazione. E' una collezione di tavoli e panche disponibili nella versione fissa e allungabile.

A 1928 Le Corbusier project inspired the design of this table system. New materials have enabled a re-designing of this project in pursuit of lightness along with a great freedom of configuration. This is a collection of tables and benches available in both fixed and extendable versions.

Un projet de Le Corbusier de 1928 a inspiré le design de ce système de tables. Les nouveaux matériaux ont permis de le redessiner à l'enseigne de la légèreté et d'une grande liberté de configuration. C'est une collection de tables et de bancs disponibles dans la version fixe et extensible.

Ein Entwurf von Le Corbusier aus dem Jahr 1928 diente als Anregung für das Design dieses Tischsystems. Innovative Materialien prägen das aktualisierte Konzept, bei dem Leichtigkeit und eine große Gestaltungsfreiheit im Vordergrund stehen. Eine Kollektion von Tischen und Bänken, die als feste oder ausziehbare Version zur Verfügung steht.

Un diseño de Le Corbusier de 1928, inspiró el diseño de este sistema de mesas. Los nuevos materiales han permitido realizar un nuevo diseño sobre la base del antiguo, caracterizado por ligereza y gran libertad de configuración. Es una colección de mesas y banquillos disponibles en la versión fija y extensible.

IPE

Una collezione progettata per costruire tavoli di grandi dimensioni, la sezione ad IPE in acciaio utilizzata per il supporto dei top tavoli conferisce grande rigidità e consente di nascondere i cavi di alimentazione di unità multimediali dal top alla parte inferiore del supporto. I top possono essere accostati per dare vita ad un sistema tavoli con dimensioni a progetto.

This is a collection that has been designed in order to create large tables, the IPE section in steel used to support the table tops provides great sturdiness and allows the power cables from multimedia devices to be concealed from the top to the bottom of the support. The table tops can be combined in order to give life to a custom-sized table system.

Une collection conçue pour construire des tables de grandes dimensions, la section en IPE d'acier utilisée pour le support des plateaux de table fournit une grande rigidité et permet de cacher les câbles d'alimentation d'unités multimédias, du plateau à la partie inférieure du support. Les plateaux peuvent être combinés pour créer un système de tables avec des dimensions selon le projet.

Bei unserer Kollektion von großflächigen, stabilen Tischen werden IPE-Stahlprofile als Stütze für die Tischplatte verwendet, denn sie gewährleisten eine ausgezeichnete Standfestigkeit und ermöglichen zudem eine versteckte Kabelführung von multimedialen Geräten auf der Platte bis zum unteren Teil des Gestells. Die Platten können aneinandergeschoben und kombiniert werden, um ein beliebig großes Tischsystem zu kreieren.

Una colección diseñada para construir mesas de gran tamaño: el perfil IPE de acero utilizado para el soporte de las encimeras de las mesas, ofrece una rigidez considerable y permite ocultar los cables de alimentación de unidades multimedia desde la encimera hasta la parte inferior del soporte. Las encimeras pueden colocarse una al lado de la otra para generar un sistema de mesas con tamaños conformes a diseño.

danske T

L’acciaio ed il legno massiccio si compenetrano generando una purezza volumetrica e valorizzando le essenze di rovere e noce. Come tutti i top in legno massiccio, extendo unisce le tavole grezze con la tecnica del finger joint, (tecnica che consente un’ unione stabile, senza elementi estranei di connessione).

The steel and solid wood permeate to generate volumetric purity and develop the oak and walnut essences. As with all solid wood tops, Extendo joins the rough table using the finger joint technique (which allows stable joinery, without foreign couplings).

L’acier et le bois massif s’interpénètrent en générant une pureté géométrique et en valorisant les essences du chêne rouvre et du noyer. Comme tous les plateaux en bois massif, extendo unit les planches brutes avec la technique du joint par entures multiples ou finger joint, (technique qui permet une union stable, sans éléments de liaison étrangers).

Der Stahl und das Massivholz durchdringen sich gegenseitig, schaffen eine volumetrische Leichtigkeit und bringen die Eiche- und Nussbaumhölzer zur Geltung. Wie bei allen Abschlussborden aus Massivholz werden die unbearbeiteten Holztafeln mit der finger-joint-Methode ohne Verbindungselemente stabil zusammengesetzt.

El acero y la madera maciza se compenetran generando una pureza volumétrica, destacando las maderas de roble y nogal. Como todos los sobres de madera maciza, extendo une las tablas sin tratar con la técnica del “finger joint” (técnica que permite una “unión estable, sin elementos extraños de conexión).

hammer

Progettato senza compromessi per un impiego outdoor, è comunque disponibile nelle finiture noce e rovere massiccio per l'inserimento indoor.
Per la versione outdoor il top e le sedute sono in Iroko trattato con olio naturale, il telaio è in acciaio corten, o acciaio verniciato a polveri, gli elementi di connessione sono in acciaio inox e ottone.

Designed without compromise for outdoor use, it is available in solid walnut and oak finishes for indoor use. For the outdoor version, the top and the chairs are in Iroko treated with natural oil, the frame is in Corten steel or powder painted steel. The joinery elements are in stainless steel or brass.

Conçu sans compromis pour une utilisation en extérieur, il est toutefois disponible dans les finitions noyer et chêne rouvre massif pour l'insertion d'intérieur. Pour la version d'extérieur, le plateau et les assises sont en Iroko traité avec de l'huile naturelle, la structure est en acier Corten, ou en acier verni par poudres, les éléments de connexion sont en acier inox et laiton.

Kompromissloser Entwurf für den Outdoor-Einsatz, steht jedoch auch als Indoor-Lösung mit Endbehandlung Nussbaum und Massiveiche zur Verfügung. Für die Outdoor-Version sind Abschlussbord und Sitze aus mit natürlichem Öl behandeltem Iroko, der Rahmen ist aus Corten-Stahl oder pulverlackiertem Stahl und die Verbindungsstücke sind aus Edelstahl und Messing.

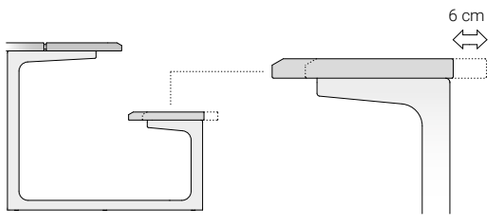

Diseñada para usarla sin problemas en el exterior, también está disponible en los acabados nogal y roble macizo para su uso en el interior. Para la versión de exterior el sobre y los asientos son de iroko tratado con aceite natural, el bastidor es de acero corten, o acero tratado con barniz en polvo, los elementos de unión son de acero inoxidable y latón.

mr.hyde

mr.hyde è una collezione di tavoli che nascondono nella parte sottostante uno o più dischi con diametro 48-54 cm. I dischi possono essere estratti ruotandoli, aumentando la superficie disponibile del tavolino. I top mr.hyde ed i dischi estraibili sono in hpl spessore 6 mm che nello sviluppo del perimetro viene ridotto tramite fresatura ad uno spessore di soli 3 mm.

mr.hyde is a collection of tables with one or more hidden discs of diameters between 48 and 54 cm. The discs can be extracted by turning them, thus increasing the available space on the table. The mr.hyde tops and extractable discs are in 6 mm HPL, milled around the edge to a thickness of just 3 mm.

mr.hyde est une collection de tables de café qui cachent dans la partie sous-jacente un ou plusieurs disques avec un diamètre de 48-54 cm. Les disques peuvent être extraits en les faisant tourner, en augmentant ainsi la superficie disponible de la table basse. Les plateaux mr.hyde et les disques extractibles sont réalisés en HPL de 6 mm d'épaisseur, qui est réduite par fraisage le long du périmètre à une épaisseur de seulement 3 mm.

mr.hyde ist eine Kollektion von Tables, die auf der Unterseite eine oder mehrere runde Platten mit einem Durchmesser von 48-54 cm verbergen. Die runden Platten können herausgedreht werden und vergrößern so die Ablagefläche des Tischs. Die HPL-Tischplatte und die runden Platten sind aus 6 mm starkem HPL gefertigt, der Rand ist dagegen auf eine Stärke von 3 mm.

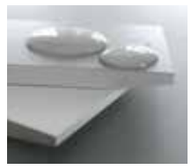

mr.hyde es una colección de tables que esconden en la parte inferior uno o varios discos, con un diámetro de 48-54 cm. Los discos pueden extraerse girándolos, aumentando la superficie disponible de la mesita. Los sobres de mr.hyde y los discos extraíbles son de hpl, de 6 mm de espesor, que en el desarrollo del perímetro se reduce a través de fresado a un espesor solo de 3 mm.

déco

Una collezione di tavolini che si ispira ad uno stile che ha influenzato l’architettura ed il design negli anni 30. Le nuove tecnologie per la lavorazione dei metalli e le alte performance dei materiali impiegati, hanno consentito di reinterpretare uno stile dalle forme classiche in geometrie contemporanee.

This is a collection of coffee tables inspired by a style that influenced both the fields of architecture and design during the 1930s. The new metalworking technologies and the high-performing materials used, have made it possible to re-interpret a style with classical forms in contemporary profiles.

Une collection de tables basses qui s’inspire d’un style qui a influencé l’architecture et le design dans les années 30. Les nouvelles technologies pour l’usinage des métaux et les performances élevées des matériaux employés ont permis de réinterpréter un style aux formes classiques en géométries contemporaines.

Eine Kollektion von Tischen, die sich am Art Déco inspiriert, einer Stilrichtung, die die Architektur und das Design der 1930er Jahre beeinflusst hat. Innovative Technologien bei der Metallbearbeitung und leistungsfähige Materialien erlauben die Neuinterpretation eines von klassischen Formen geprägten Stils, die mit zeitgenössischen Konturen überzeugt.

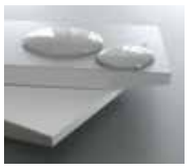

Una colección de mesitas inspirada en el estilo que predominó en la arquitectura y el diseño de los años 30. Las nuevas tecnologías para el procesamiento de metales y las altas prestaciones de los materiales utilizados, permitieron reinterpretar un estilo caracterizado por formas clásicas, creando geometrías contemporáneas.

La lama in acciaio che ricorda il profilo di chiglia delle navi vichinghe è la spina dorsale di tutte le sedute che fanno parte della collezione. Su di essa si innestano il fondello lo schienale e gli appoggi a terra. Il telaio è in acciaio, mentre i componenti di seduta e schienale sono disponibili in multistrato o cuoio.

The steel blade recalling the contour of the keel of Viking ships is the backbone of all the chairs belonging to this collection. The chair seat, the backrest and the chair legs are inserted onto this. The chair frame is made of steel, while the seat and backrest are available in either plywood or leather.

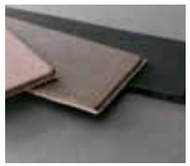

La lame en acier qui rappelle le profil de la quille des navires vikings est l'épine dorsale de toutes les assises qui font partie de la collection. C'est sur elle que s'enclenchent le fond, le dossier et les appuis au sol. Le châssis est en acier alors que les composants de l'assise et du dossier sont disponibles en multicouche ou en cuir.

Ein Stahlprofil, das an den Rumpf der Wikingerschiffe erinnert, stellt das Rückgrat aller Stühle dieser Kollektion dar, an dem die Sitzfläche, die Rückenlehne und die Bodenstützen befestigt sind. Der Rahmen ist aus Stahl gefertigt, während die Sitzflächen und die Lehnen in Sperrholz oder Leder erhältlich sind.

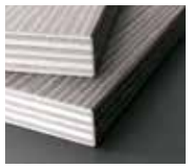

La cuchilla de acero que recuerda el perfil de la quilla de los barcos vikingos, es la espina dorsal de todos los asientos que forman parte de la colección. Sobre ella, se ensamblan el fondo, el respaldo y los apoyos en el suelo. El bastidor es de acero, mientras que los componentes del asiento y el respaldo, están disponibles en madera estratificada o cuero.

L’acciaio e il legno vengono plasmati esaltando le loro caratteristiche strutturali ed estetiche. Le singole geometrie tridimensionali di legno e acciaio si compenetrano in uniche superfici. Le parti in legno massiccio sono protette con vernice all’acqua opaca antigraffio, mentre le parti in acciaio sono verniciate a polveri.

Steel and wood are shaped to emphasise their structural and aesthetic characteristics. The individual, three-dimensional geometries of the wood and steel permeate in single surfaces. The solid wood parts are protected with matt, scratch-proof water-based varnish, while the steel parts are powder painted.

L’acier et le bois sont façonnés en exaltant leurs caractéristiques structurelles et esthétiques. Les différentes géométries tridimensionnelles du bois et de l’acier s’interpénètrent en surfaces uniques. Les parties en bois massif sont protégées avec du verni à l’eau opaque résistant aux rayures, alors que les parties en acier sont vernies par poudres.

Stahl und Holz sind so geformt, dass ihre strukturellen und ästhetischen Eigenschaften unterstrichen werden. Die einzelnen, dreidimensionalen Formen von Holz und Stahl durchdringen zusammen zu einzigen Oberflächen. Die Teile aus Massivholz sind mit einer Schicht aus mattem und kratzfesten Wasserlack geschützt und die Teile aus Stahl sind pulverlackiert.

El acero y la madera se modelan exaltando sus características estructurales y estéticas. Las geometrías tridimensionales individuales de la madera y el acero se compenetran en superficies únicas. Las piezas de madera maciza están protegidas con barniz mate al agua resistente a los arañazos, mientras que las piezas de acero están tratadas con barniz en polvo.

Supporto pensato per installare le Tv di nuova generazione a parete o in centro stanza con la massima flessibilità. Il sistema di integrazione cavi studiato da extendo consente di nascondere completamente i cavi lasciando libertà di rotazione di 360° della Tv. Il supporto rotante e il contenimento di apparati multimediali nella parte sottostante sono accessori.

This is a TV support column designed to host new generation TV installations either mounted on the wall or in the centre of the room with the utmost flexibility. The cable integration system designed by extendo makes it possible to completely conceal cables enabling the TV to freely rotate a full 360°. The turntable swivel base and the multimedia device cable containment system in the lower part of the support column are accessories.

Support conçu pour installer les téléviseurs de nouvelle génération au mur ou au centre de la pièce avec une flexibilité maximale. Le système d'intégration des câbles, conçu par extendo, permet de cacher complètement les câbles en laissant la liberté de rotation de 360° du téléviseur. Le support pivotant et le récipient pour appareils multimédias dans la partie en dessous sont des accessoires.

Fernsehhalterung für die Installation von TV-Geräten der neuesten Generation an der Wand oder in der Raummitte, für maximale Flexibilität bei der Positionierung. Dank der von extendo entwickelten, integrierten Kabelführung lassen sich die Gerätekabel völlig verstecken, wobei das Gerät um 360 Grad schwenkbar bleibt. Die Drehhalterung und die unterhalb anzubringenden Fächer für Multimedia-Geräte sind als Zubehör erhältlich.

Soporte pensado para instalar televisores de nueva generación en la pared o en una posición central en el ambiente, con la máxima flexibilidad. El sistema de integración de cables estudiado por extendo, permite ocultar los cables por completo, dejando libertad de rotación de 360° para el televisor. Cuenta con accesorios en la parte de abajo: un soporte giratorio y un espacio para posicionar dispositivos multimedia.

i cavi della TV e di eventuali unità multimediali sono completamente nascosti.
the TV and multimedia unit wires are completely hidden.
les fils de la TV et des unités multimédias sont complètement dissimulés.
Die Kabel des Fernsehers und der Multimedia sind vollkommen unsichtbar.
los cables de la TV y de los sistemas multimedia quedan completamente ocultos.

apollo

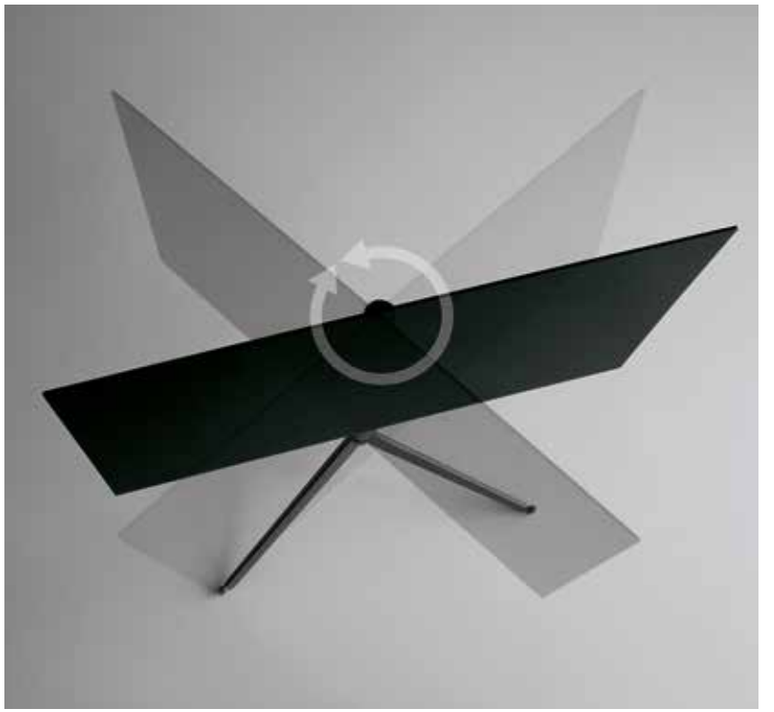

Desideravamo disegnare un supporto che si integrasse al meglio con il design essenziale degli ultimi modelli Tv. Apollo pur essendo composto da pochi elementi che ne evidenziano la purezza geometrica, consente la rotazione di 360°, l'occultamento dei cavi e la possibilità di aggiungere accessori porta decoder e sound bar.

We had the intention to design a TV support column that integrates at best with the essential design of the latest TV models. Although Apollo consists of only a few elements that enhance its geometrical purity, it rotates 360°, the concealing of cables along with the possibility to add TV decoder and sound bar support accessories.

Nous souhaitions dessiner un support qui s'intègre au mieux avec le design essentiel des derniers modèles de téléviseurs. Apollo, même s'il est composé de peu d'éléments qui mettent en évidence sa pureté géométrique, permet la rotation de 360°, la dissimulation des câbles et la possibilité d'ajouter des accessoires comme le porte-décodeur et la barre audio.

Unser Anliegen bestand darin, einen Fernsehständer zu entwerfen, der optimal auf das essentielle Design der neuesten TV-Modelle abgestimmt ist. Apollo setzt auf einen essentiellen Aufbau aus wenigen Elementen und besticht durch eine schlichte Optik. Er erlaubt eine Drehung des Geräts um 360 Grad, bietet unsichtbare Kabelverlegung und auf Wunsch zusätzliche Ablagen für Decoder und Soundbar als Zubehör.

Nuestro deseo era diseñar un soporte que se integrara de la mejor forma con el diseño esencial de los últimos modelos de televisores. Apollo, que consta de pocos elementos que ponen de relieve su pureza geométrica, permite la rotación de 360°, ocultar los cables y la posibilidad de añadir accesorios porta codificador y barra de sonido.

i cavi della TV e di eventuali unità multimediali sono completamente nascosti.

spin360

Spin 360 è un supporto TV disegnato e progettato per una perfetta integrazione con i monitor dal design più sofisticato. Nascondere i cavi completamente al suo interno e orientare la colonna a 360 gradi, garantisce massima funzionalità e purezza di disegno. Spin 360 è disponibile nella versione con base in acciaio spessore 6mm, con contenitore per unità multimediali aperto o chiuso, in due altezze distinte H=100 / 120 cm, (altezze nel punto medio del monitor).

Spin 360 is a TV support designed and manufactured for perfect integration with the most sophisticated monitor designs. It completely hides wires within and the column can be turned 360 degrees, guaranteeing maximum functionality and clean design. Spin 360 is available in a version with a 6mm thick steel base, with a container for multimedia units opened or closed, in two distinct heights H=100 / 120 cm, (heights at average height of the monitor).

Spin 360 est un support pour TV dessiné et conçu pour une intégration parfaite avec les écrans aux designs les plus sophistiqués. Pour un maximum de fonctionnalité et de pureté du dessin dissimuler les fils complètement à l'intérieur et orienter la colonne à 360 °. Spin 360 est disponible dans la version avec base en acier, épaisseur 6 mm, avec module de rangement pour unités multimédias ouvert ou fermé, disponible dans deux hauteurs distinctes H=100/120 cm, (hauteurs mesurées au point médian de l'écran).

Spin 360 ist ein TV-Halter, der für eine perfekte Integration von hoch entwickelten Bildschirmen entworfen wurde. Die vollständige Unterbringung der Kabel im Halter und die Drehmöglichkeit der Säule um 360 Grad, bieten höchste Zweckmäßigkeit und ein klares Design. Spin 360 ist in der Version mit einem Fuß aus 6 mm starkem Stahl, einer multimedialen, offenen oder geschlossenen Einheit, in zwei unterschiedlichen Höhen von 100 oder 120 cm (Höhe des Mittelpunktes des Bildschirms) erhältlich.

Spin 360 es un soporte de TV diseñado y desarrollado para una integración perfecta con la pantalla de diseño más sofisticado. Ocultar los cables completamente en su interior y orientar la columna a 360 grados, garantiza la máxima durabilidad y la pureza del diseño. Spin 360 está disponible en versión con base de acero de 6 mm de grosor, con compartimento para sistemas multimedia abierto o cerrado, en dos alturas diferentes H = 100/120 cm, (altura desde el punto central de la pantalla).

la base è dotata di pattini in teflon per un facile spostamento.
the base is equipped with Teflon slides for easy movement.

SONY

La copertura in acciaio a rimozione rapida, consente di nascondere nella parte posteriore del monitor, cavi e prese. Il supporto regolabile per sound bar è un accessorio utilizzabile nei 6 modelli porta TV.

The fast-removal steel covering allows the rear part of the monitor, cables and sockets to be easily hidden. The adjustable support for the sound bar is an accessory used in the 6 TV support models.

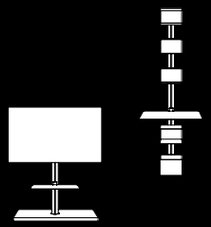

La couverture en acier à démontage rapide, permet de dissimuler les fils et les prises à l'arrière de l'écran. Le support réglable pour barre de son est un accessoire utilisable avec les 6 modèles porte TV.

Die einfach zu entfernende Stahlabdeckung ermöglicht die sichtgeschützte Unterbringung der Kabel und Stecker an der Rückseite des Bildschirms.
Der einstellbare Sound Bar-Halter kann bei den 6 Modellen für TV-Halter eingesetzt werden.

La cubierta de acero de extracción rápida permite ocultar, por detrás de la pantalla, cables y tomas.
El soporte ajustable para la barra de sonido es un accesorio utilizable en los 6 modelos de soporte de TV.

girogiro-system

Le colonne girogiro con base 40x40 sono accessoriabili con elementi porta libri, riviste, CD. La versione girogiro con base 80x40, l'asta telescopia extendo e il profilo a parete extendo, sono prodotti accessoriabili con staffa supporto monitor universale, ripiani per unità multimediali, ripiani per libri, riviste, DVD, CD. Le clip ferma-cavi in dotazione con la staffa monitor consento di effettuare il cablaggio all'esterno del profilo.

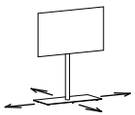

The girogiro columns with a 40x40 base can be accessorised with book, magazine and CD shelving elements. The girogiro version with an 80x40 base, the Extendo telescopic pole and Extendo wall profile are products easily accessorised with a universal monitor support bracket, shelving for multimedia units or shelving for books, magazines, DVDs and CDs. The cable-tie clips supplied with the monitor bracket enable wiring outside the profile.

Les colonnes girogiro avec base 40x40 peuvent être équipées avec des éléments porte-livres, revues, CD. La version girogiro avec base 80x40, la tige télescopique extendo et le profilé mural extendo sont des produits pouvant être équipés de fixation de support de moniteur universel, d'étagères pour unités multimédia, d'étagères pour livres, revues, DVD, CD. Le clip serre-câble fourni avec la fixation de support de moniteur permet d'effectuer le câblage à l'extérieur du profilé.

Die Säulen girogiro mit einem 40x40 Fuß können mit Halter für Bücher, Zeitschriften, CDs ausgestattet werden. Die Version girogiro mit Fuß 80x40, die extendo Teleskopstange und das extendo Wandprofil, können mit Universal-Monitor-Halter, Fächer für multimediale Geräte, Fächer für Bücher, Zeitschriften, DVD und CD ausgestattet werden. Die zusammen mit dem Monitorhalter gelieferte Kabelklemmen ermöglichen die Verkabelung an der Außenseite des Profils.

Las columnas girogiro con base de 40 x 40 se pueden equipar con elementos de almacenamiento de libros, revistas y CD. La versión girogiro con base de 80 x 40, la barra telescópica extendo y el perfil de sujeción a pared extendo son productos equipables con accesorios como el soporte de monitor universal o los estantes para libros, revistas, DVD o CD. El clip sujetacables que viene con el soporte de monitor permite efectuar el cableado por fuera del perfil.

la base è dotata di pattini in teflon per un facile spostamento.

slide

Le coppie di profili verticali, i ripiani e le barre appenderia sono ordinabili al centimetro, ciò consente di progettare lo spazio desiderato in modo sartoriale senza extracosti di riduzioni.

The pairs of upright profiles, the shelves and hanging rails can be sized to the centimetre, making it possible to design a tailor-made space without the added cost of reductions.

Les paires de profils verticaux, les étagères et les barres porte-vêtements peuvent être commandées au centimètre, ceci permet d'organiser l'espace souhaité « sur mesure » sans coûts supplémentaires de réduction.

Die Paare vertikaler Profile, die Böden und die Aufhängestangen können zentimetergenau bestellt werden. Dadurch kann der gewünschte Raum ohne zusätzliche Kosten für Kürzungen maßgeschneidert geplant werden.

Los pares de perfiles verticales, estantes y barras de colgar se pueden pedir por centímetros, lo que permite diseñar el espacio deseado adaptándolos sin costos adicionales de reducción.

Le materie prime che costituiscono il sistema slide derivano da un processo di riutilizzo e sono a loro volta riciclabili.

The primary materials used in the system slide are sourced from a reuse process, and are in turn recyclable.

Les matières premières qui composent le système slide dérivent d'un processus de réutilisation et sont à leur tour recyclables.

Die Rohstoffe für das System slide entstammen einem Wiederverwertungsprozess und sind Ihrerseits wiederum recyclebar.

Las materias primas que constituyen el sistema slide proceden de un proceso de reutilización y son, a su vez, reciclables.

Il sistema di ancoraggio a “pinza” tra ripiani e profili verticali consente in fase progettuale il loro libero posizionamento in orizzontale e verticale. E’ disponibile anche una versione di barra appenderia in posizione ”terminale” che consente di spostare orizzontalmente la coppia profili verticali in ogni momento.

The "pincer" anchoring system attaching shelves to upright profiles means that during the design stage they can be freely positioned horizontally and vertically. The hanging rail is also available in an end-position version, so that the pair of upright profiles can be moved horizontally at any time.

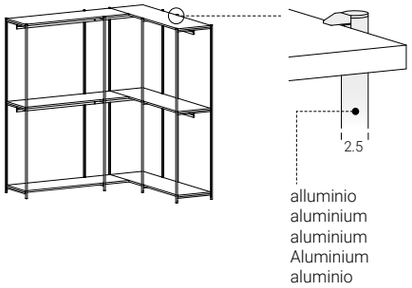

Le système de fixation par « pince » entre les étagères et les profils verticaux permet, en phase de conception, leur positionnement libre dans le sens horizontal et vertical. Une version de barre porte-vêtements est également disponible en position « terminale ». Elle permet de déplacer la paire de profils verticaux dans le sens horizontal à tout moment.

Mit dem „Klemmen“-Verankerungssystem zwischen Böden und vertikalen Profilen können die Elemente bei der Planung frei horizontal oder vertikal positioniert werden. Es ist auch eine Version mit Aufhängestange in "Endposition" erhältlich, bei der das Paar vertikaler Profile jederzeit verschoben werden kann.

El sistema de anclaje de "pinza" entre los estantes y los perfiles verticales permite su libre colocación en horizontal y vertical durante la fase de diseño. También hay una versión de barra de colgar en posición "terminal" que permite colocar horizontalmente el par de perfiles verticales en todo momento.

extendo
patented
product

personal

Il sistema brevettato extendo è formato da due profili in alluminio estensibili, adattabili alle diverse altezze degli ambienti. Agendo sulla leva a scomparsa, i profili si bloccano all'altezza desiderata e si comprimono tra pavimento e soffitto, senza l'utilizzo di alcun utensile o pre-fissaggio.

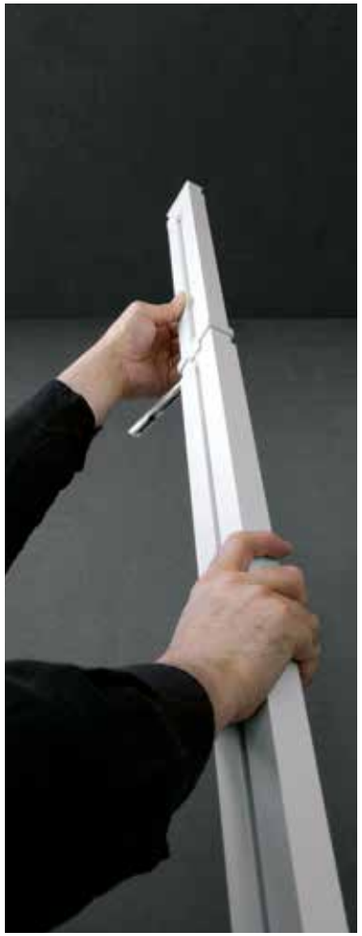

The patented extendo system consists of two extendable aluminium profiles that can be adapted to environments of various heights. Using the foldaway lever, the profiles can be blocked at the desired height and compressed between floor and ceiling, without having to use any kind of pre-fixing tool.

Le système breveté extendo est constitué de deux profilés extensibles en aluminium pouvant être adaptés aux différentes hauteurs des milieux. En agissant sur le levier escamotable, les profilés se verrouillent à la hauteur souhaitée et se compriment entre plancher et plafond, sans utiliser aucun outil ou préfixation.

El sistema patentado extendo está formado por dos perfiles de aluminio extensibles, adaptables a las distintas alturas de los ambientes. Actuando sobre la palanca escondida, los perfiles se bloquean a la altura deseada y se comprimen entre el suelo y el techo, sin que sea necesario utilizar ninguna herramienta o fijación previa.

Das patentierte System extendo besteht aus zwei ausziehbaren Aluminium-Profilen, die an unterschiedliche Raumhöhen angepasst werden können. Durch einen versenkbaren Hebel werden die Profile auf der gewünschten Höhe blockiert und zwischen Fußboden und Zimmerdecke ohne Werkzeug oder Vor-Befestigung komprimiert eingesetzt.

L'asta telescopica extendo esercita una spinta dinamica verso l'alto che consente di assorbire eventuali variazioni d'altezza tra pavimento e soffitto che possono avvenire nel corso del tempo. Per progettare senza vincoli ogni spazio, sono disponibili adattatori soffitto cartongesso, soffitto inclinato e a parete.

The extendo telescopic rod exerts dynamic upward pressure, so that it can absorb any height variations between the floor and ceiling that may occur over time.In order to design any space without limitations, adaptors are available for plasterboard ceilings, sloped ceilings and walls.

La tige télescopique extendo exerce une poussée dynamique vers le haut qui permet d'absorber les éventuelles variations de hauteur entre le plancher et le plafond susceptibles de se présenter au fil du temps. Pour concevoir tout espace sans contraintes, des adaptateurs pour plafond en placoplâtre, plafond incliné et pour application murale sont disponibles.

personal materials

alluminio

Le materie prime che costituiscono il sistema personal derivano da un processo di riutilizzo e sono a loro volta riciclabili.

The primary materials used in the personal “system” are sourced from a reuse process, and are in turn recyclable.

Les matières premières qui composent le système personal dérivent d’un processus de réutilisation et sont à leur tour recyclables.

Die Rohstoffe für das System personal entstammen einem Wiederverwertungsprozess und sind Ihrerseits wiederum recyclebar.

Las materias primas que constituyen el sistema personal proceden de un proceso de reutilización y son, a su vez, reciclables.

Die Teleskopstange extendo übt einen dynamischen Druck nach oben aus, wodurch mögliche Änderungen des Abstands zwischen Boden und Decke, wie sie im Lauf der Zeit auftreten können, aufgefangen werden. Um jeden Raum ohne Einschränkungen planen zu können, sind Adapter zur Befestigung an Decken aus Gipskarton, Dachschrägen und an Wänden erhältlich.

La barra telescópica extendo ejerce un empuje dinámico hacia arriba que permite absorber las variaciones de altura entre el suelo y el techo que se pueden dar con el tiempo. Para diseñar sin limitaciones cualquier espacio, existen adaptadores de cartón-yeso para techo, techo inclinado y pared.

Profilo extendo con attacco a parete disponibile in tre altezze o con supporto a pavimento autoportante.

Extendo profile with wall coupling available in three heights or with freestanding floor support.

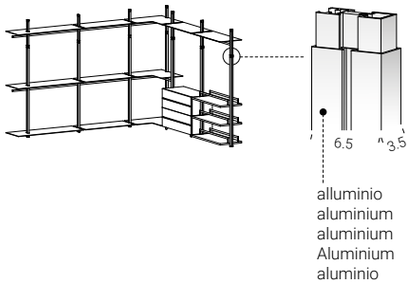

Profilé extendo avec fixation murale disponible en trois hauteurs ou avec support au sol autoportant.

Das extendo Profil mit Wandbefestigung steht in drei verschiedenen Höhen oder mit selbsttragender Bodenhalterung zur Verfügung.

Perfil extendo con sujeción a pared disponible en tres alturas y con soporte autónomo al suelo.

I ripiani in vetro adottano un esclusivo sistema d'attacco su supporti in alluminio ad incollaggio UV. Il sistema ad incollaggio impedisce ogni contatto diretto con l'asta estensibile. I ripiani in vetro sono disponibili in tutti i moduli della collezione personal, 60/90/120 e ad angolo con o senza barra porta abiti.

The glass shelves have an exclusive mounting system on aluminium supports with UV bonding. The bonding system prevents direct contact with the extendable bar.
The glass shelves are available in all the modules of the personal collection, 60/90/120 and for the corner unit with or without a clothes rail.

Les étagères en verre adoptent un système d'attelage exclusif sur des supports en aluminium à collage UV. Le système à collage empêche tout contact direct avec la tige étirable. Les étagères en verre sont disponibles dans tous les modules de la collection personal, 60/90/120 et à angle avec ou sans barre porte-vêtements.

Die Glasregale haben ein eigenes Befestigungssystem auf Aluminiumhaltern mit UV-Klebung. Das Klebesystem verhindert jeglichen direkten Kontakt mit der ausdehnbaren Stange. Die Glasregale sind in allen Modulen der Personal Kollektion erhältlich, 60/90/120 und mit Winkel, mit oder ohne Kleidungsstange.

Las repisas de vidrio adoptan un sistema de enganche exclusivo en soportes de aluminio mediante encolado UV. El sistema de encolado impide cualquier contacto directo con la barra extensible. Las repisas de vidrio se encuentran disponibles en todos los módulos de la colección personal, 60/90/120 y en ángulo con o sin barra percha para prendas de vestir.
